WELCOME

“We understand storage has the power to transform homes.”

Everyone at Hammonds believes wholeheartedly that a well ordered bedroom is the only way to wake up. This genuinely has a positive effect on your wellbeing and the way you face the day ahead. My family, the Hammonds, have been making custom designed fitted furniture for nearly a century, so we know how to use space intelligently and how storage has the power to transform homes. Whether it be a

well-designed wardrobe, a simply crafted cupboard or a cabinet that organises clothes and your precious possessions. Bringing order and calm to everyday lives, making rooms feel bigger, more positive. I’m also passionate that any furniture bearing my name, built into your bedroom, has to be beautiful, has to fit perfectly and has to be built from sustainable materials and quality components. You have my word on it.

# Doing our bit

## CARBON OFFSET

From 2020, every edition of Moments magazine, every brochure and every brochure envelope is now carbon offset. This conscious move saves an estimated 55 tonnes of carbon per year!\* Even better, the brochures are free from single use plastic, and 100% recyclable, you can rest peacefully knowing we're doing our bit to look after the planet. This conscious move saves an estimated 55 tonnes of carbon per year, which equates to more than the average annual carbon footprint of 4 people in the UK!

\*Total figure is based on total paper used in the printing process, per year.

## SECTION 1:

“In everything we do, we make sure we have as little impact on the planet as possible”

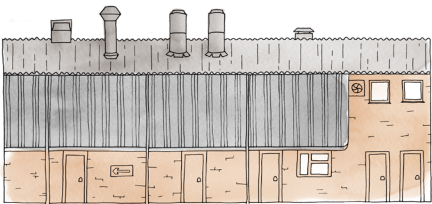

RICHARD HAMMONDS  
CEO

### WE HAVE PLANTED OVER 100,000 TREES IN 10 YEARS

Whilst sourcing all of our materials from sustainable forests, we've also consciously given back to the planet, planting trees to replace the ones we used! We've planted over 100,000 trees in just 10 years donating over £1 million to the Woodland Trust.

### REDUCING OUR WASTE

We aim to create as little waste as possible, so we use the majority of our wood offcuts to heat our factories.

### ALL PACKAGING IS RECYCLED RESPONSIBLY. BY US, NOT YOU!

With every installation our fitters will take away every scrap of packaging to our regional warehouses, our drivers will then collect this to be recycled responsibly, whether that's in our factories or at dedicated recycling plants. Leaving your home and the environment as tidy as we can!

## SUSTAINABILITY

From every piece of furniture our factories make, to every room we fit, we're conscious of our impact on the environment. Every day we're making steps to ensure we care for and give back to our planet.

# We make things better

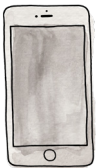

**QUALITY. ONE WORD THAT SUMS UP ‘THE HAMMONDS WAY’.**

Your bedroom will be made from raw materials in our purpose-built factories by trained craftsmen... but its worth pointing out that the ‘Hammonds’ family name, comes from a long line of carpenters.

No wonder our eye for detail, and the feeling that even the tiniest component deserves due consideration, has spread throughout the company. ‘The Hammonds Way’.

LIVE BETTER

**Say no to technology**

Separate technology from your bedroom, you’ll rest better and feel refreshed and invigorated after a good night’s sleep.

**SECTION 1:**

## Six reasons Hammonds is better

**SOFT-CLOSE AS STANDARD**

We’re not the only ones that offer ‘soft-close’ drawers, but our rivals only offer this on their exterior drawers. Hammonds offers ‘soft-close’ on both exterior and interior drawers.\*

**THE SMOOTHEST GLOSS**

Have you ever looked at a gloss door and seen what we call ‘orange peel’; it’s a slight rippled effect you get on lower quality gloss doors. How do we avoid it? Simple, we’ve explored different processes to ensure we get the perfect, crisp finish.

**STRONGER DRAWERS**

A drawer should be robust; we build ours with four strong sides, then fit our handles to an additional panel. Other companies stick their handles directly to the frame, slapdash.

**QUALITY MATERIALS**

The thicker the material used, the better. So we only select the best quality MDF or MFC, making the overall build stronger and more durable. Our work looks and feels more substantial.

**MATCH CORNICE & PLINTH**

We design a range not just a door – a great deal of thought and consideration goes into designing a range. Everything is specifically tailored to complement that range including different styles of cornice and plinth to finish the range off perfectly. No short cuts!

**CHOICE OF INTERIORS**

We offer a full range of clever storage solutions, to ensure that all of your beloved belongings have a home of their own. With the choice of SpaceLuxe™, SpaceMax™ and aluminium units - there’s a perfect option for every space.
